# INTRODUCTION

## **DJ TANTRUM ROCKS** **VIBE CURATOR | TURNKEY PRODUCTION PARTNER**

Tested everywhere. Trusted every time.

Versatility met with precision. DJ Tantrum has commanded festival crowds of 10k+, appeared on Good Morning America, and executed high-touch corporate events and brand activations with McDonald's, Sprite, Adidas, Grainger, and Gastech Global. He curates the beat with sniper precision across every format: hip-hop to country, corporate cocktail to afterparty. He's opened for culture shifters like Kanye West, collaborated with icons like Pitbull, won McDonald's Flavor Battle, held residencies from Houston Beer Fest to South Padre Island, and aired on BET, MTV2, and Sirius Shade 45.

But here's what separates the line item from the investment: Tantrum deploys as a full production partner - Bass Boss festival-grade audio, staging, lighting, MC services, and 13kW self-contained power. Four scalable service tiers from executive cocktail hours to large-format festivals.

DJ Tantrum - Built different. Booked repeatedly.
